November 1976

Jacque-Lynne Schulman, Editor

FORMER HEALTH SCIENCES LIBRARIAN TO BE HONORED

For 33 years Ms. Isabella F. Young directed a small, crowded, active medical library, when the Medical School was at 13th and H Streets, N.W. For years she was the only librarian and served the faculty, staff, and students as more than a guide to books and journals. She was a confidant, a friend, and to many, a banker. As the library moved to its present, new building, Ms. Young retired, ending an era of Medical School history.

The committee formed to honor her dedication and contributions is chaired by Dr. James G. Watts. Other members of the committee are Drs. Frank D. Allan, Seymour Alpert, L. Thompson Bowles, Charles S. Coakley, Ronald P. Kaufman, Sidney A. Levine, Thomas M. Peery, Mary Louise Robbins, Ms. Nina W. Matheson and Mr. Jno Randall.

An oil portrait of Ms. Young has been commissioned and will be hung on the first floor of the library she planned and helped to make possible.

The committee is now in the final stage of planning and a formal dedication date for hanging the portrait will be announced in a future issue.

Thanksgiving Library Hours

| Sunday, November 28 | 10:00 am - 10:00 pm |

HIMMELFARB TOUR PROMOTES INTERNATIONAL COOPERATION

On October 11, the Himmelfarb Library was the site for a tour by Professor Olga Momcilovic on her first visit to the U.S. She is the acquisitions librarian of the Serbian Academy of Sciences in Yugoslavia.

Joseph Jensen guided Professor Momcilovic in an overall tour of the Library.

The tour was sponsored by the International Visitors Program of the U.S. Department of State which selected the Himmelfarb as a typical medical school library. The purpose of the visit was for Professor Momcilovic to gain an understanding of American library practices and scientific information resources. She was particularly interested in audiovisual materials and acquisitions practices. It was also hoped that the trip would lead to cooperative interaction between the Serbian Academy of Sciences and the USIS Information Center in Belgrade. Daniel J. Yett, former Acting Director of the Himmelfarb Library, is the USIS Regional Librarian for Eastern Europe, including Yugoslavia.

WILLIAM OSLER MEDAL Student Essay Contest for 1977

The William Osler Medal is awarded by the American Association for the History of Medicine for the best unpublished essay on a medico-historical subject written by a student or recent graduate in a United States or Canadian medical school. A prize of \$200.00 is awarded with the medal.

Essays will be considered that involve the historical development of current medical problems and those dealing with medical problems of the past. The maximum length is 10,000 words. The winning essay will be submitted for publication in the Bulletin of the History of Medicine. The deadline for receipt of entries is March 1, 1977. Application materials should be requested from Dr. Wilhelm Moll, Health Sciences Library, Box 234, University of Virginia Medical Center, Charlottesville, Virginia 22901. A copy of the contest announcement is posted in the library on the first floor bulletin board and in Ross Hall elevator lobbies.

LIBRARY USE PRIORITIES SET

The Himmelfarb Library serves the information and instructional needs of the GWU Medical Center community. Service is provided to other members of the University and larger communities as resources permit.

There is great competition for space in group study rooms and closed carrels, especially between non-Medical Center University students and students from other D.C. colleges. This demand has exceeded the supply and prevented GWUMC students from using these areas.

Use of the AV Study Center by non-GWUMC students has also conflicted with our students' need for access and a similar situation has developed in regard to reserve materials.

In order to better serve the needs of the GWUMC community, the following policies have been established:

GROUP STUDY ROOMS AND CLOSED CARRELS
ARE FOR USE BY GWU MEDICAL CENTER STUDENTS,
STAFF AND FACULTY ONLY.

GWUMC GROUPS HAVE PRIORITY OVER INDIVIDUALS IN
THE USE OF GROUP ROOMS.

All others are welcome to use open study
carrels and open study areas.

THE AV STUDY CENTER IS FOR USE BY GWU
MEDICAL CENTER STUDENTS, STAFF AND
FACULTY ONLY.

A GWU MEDICAL CENTER I.D. CARD IS REQUIRED
TO BORROW RESERVE MATERIALS. THESE MATER-
IALS MUST BE RENEWED IN PERSON.

At the suggestion of Medical Center student representatives, the library administration has decided that space priorities will be self-enforced. Students, staff or faculty who wish to remain undisturbed will display a current GWUMC I.D. card in the window of the study room or carrel. If such a card is not in view, you may be asked for identification by a GWUMC user seeking that space.

Questions about implementation of these policies can be directed to Joseph Jensen, Chief, Public Services (X2963).

ACQUISITIONS

This is a listing of new titles added to the Himmelfarb Library collection during ~~September and October~~. *December*

Only the first author is listed for each title, and place of publication is omitted. Edition is given for other than the first. The last part of the call number which follows the publisher is year of publication (or year of meeting if a symposium, congress, etc.) Reference ~~and~~ reserve items are so indicated in the call numbers for those titles. *+ Audiovisual*
